**ANNUAL RENEWAL REQUIRED**

## IMPORTANT INFORMATION

With your signature on an alarm permit application, you have accepted certain responsibilities concerning the operation and maintenance of the alarm system, and proper response to all alarm calls, for the location indicated.

The following general information regarding your responsibilities is provided to you as it pertains to the administration of the City of Texarkana, Texas, alarm ordinance and building numbers.

- 1) **COMMERCIAL** permits must be posted at each keypad. **RESIDENTIAL** permits must be available and presented to officers upon request.
- 2) Permits must be renewed annually. The expiration date is displayed in red on the right side of the permit. It is your responsibility to contact the Alarm Administration Office for renewal.
- 3) The information you have provided on your application must be current. If any changes occur (i.e., responding agents' addresses, phone numbers, etc.) you should contact our office as soon as possible. These changes must also be reported to your monitoring company. Changes in business/resident name, location, ownership, managers, etc., will require completion of new application. Alarm permits are not transferable to a different commercial/resident name or alarm location address.
- 4) Commercial and residential address numbers must be at least 4 inches in height and clearly visible from the street curb. Numbers on buildings more than 50 feet from the curb must be at least 5 inches in height and clearly visible from the street curb.
- 5) The alarm ordinance allows three (3) false alarm calls per location within a twelve (12) month Alarm Permit Period. All additional false alarm calls will result in a service fee of \$50.00 (fifty dollars) per call being assessed to you. If more than ten (10) False Alarms have been activated at an Alarm Site during a twelve (12) month Alarm Permit period, the Alarm Administrator may deny or revoke an Alarm Permit.
- 6) If an Alarm Site emits multiple False Alarms within a twenty-four (24) hour period and the Permit Holder can prove, in writing, that the false alarms were caused by a mechanical malfunction of the Alarm System, then all multiple False Alarms will be counted as one False Alarm. If the criterion is met, the Alarm Specialist may determine that the calls can be counted as one (1) false alarm call.
- 7) **Upon request by your monitoring company for an officer to respond to an alarm call, your alarm monitoring company is required to contact you, or one of your responding agents. The alarm ordinance requires someone to physically respond within thirty (30) minutes to the alarm location upon notification of alarm by the monitoring company. Failure to respond within thirty (30) minutes of notification to an alarm call at this location may result in a citation being issued.**

If you have any questions regarding this information, contact the Alarm Administration Office (903) 798-3102.
